

1 Introduction

This certification scheme is intended for those individuals that wish to become certified by CIBSE Certification and to be listed on the Heat Networks Consultants Register.

This scheme provides an independent, third party evaluation of an individual's competence to operate as a Heat Networks Consultant.

1.1 Who can apply?

Anyone can apply to become a Heat Networks Consultant, subject to successfully completing an approved assessment.

1.2 What can I provide as a Heat Networks Consultant?

As a Heat Networks Consultant you can promote yourself as competent to use the CIBSE CP1 (2015) Heat Networks: Code of Practice for the UK.

2 Technical Requirements for Heat Networks Consultants

The Heat Networks Consultant role as described above is based on having been assessed on an understanding of all of the stages covered by the CIBSE CP1 (2015) Heat Networks: Code of Practice for the UK. The Consultant may have expertise in particular areas based on other qualifications or experience.

3 Examination

This certification scheme requires that your competence be assessed against the technical requirements listed above.

CIBSE Training and Events are providing the assessment service; please go to <https://www.cibse.org/training/search-courses> for details.

Training is available but is not mandatory, although it is recommended (if only for your CPD). An examination only option is available at your own choice and risk.

4 Open to all

The Heat Networks Consultant certification scheme is open to anyone who wishes to be assessed, certified and registered as a CIBSE Certification Heat Networks Consultant.

Providing you can meet the entry requirements in terms of competence and have proof of ongoing professional indemnity insurance you may apply.

All applicants for certification and registration must also fulfil all of the applicable application requirements of this scheme description document. Once certified, compliance with all other requirements for this scheme description document must be complied with along with any other requirements imposed by the scheme of which you will be notified from time to time.

Note: Assessment of competence is mandatory during the application process and on an ongoing basis throughout the certification period e.g. complying with any

Issue date:	03/08/22	Page:	1 of 6

requests for undergoing QA audits, witnessed audits, assessments of CPD undertaken etc.

5 Certification & Listing on the Register

In order to become certified and to join the register you will be required to pass an examination(s) or equivalent evaluation taken under controlled conditions for which you are strongly advised to take appropriate training, see Section 3 above.

All applications for certification and registration on the Register are checked to ensure the individual's eligibility and that the necessary declaration has been signed.

Once in possession of your examination pass confirmation from the exam provider (usually in the form of a letter or certificate), individuals may complete their application to CIBSE Certification Ltd for certification and listing on the Heat Networks Consultants Register by completing the relevant application form.

Additionally, you will need to:

- Provide evidence of your professional indemnity insurance
- Sign the CIBSE Certification Code of Conduct declaring that you will act only within your own areas of competence and that you will abide by all CIBSE Certification scheme rules
- Act to reduce carbon emissions and improve energy efficiency

Once it is confirmed that all the information required has been collected and reviewed by CIBSE Certification a decision regarding certification will be made.

You will be informed regarding this decision and if it is positive you will be added to the Heat Networks Consultants Register and your certification documents issued.

Initial certification is for a period of three years with an annual fee and maintenance requirements must be met – see Sections 6.2 and 7.

6 Application processes

Step 1, Apply – to become a Heat Networks Consultant.

Application forms are available on the CIBSE Certification website.

Step 2, Evaluation – we expect you to fulfil the competence requirements to become a Heat Networks Consultant. You are required to take and pass an examination to demonstrate this. Proof of this is required as part of your application.

Step 3, Application – complete the application form for the Heat Networks Consultant Register and submit it along with:

- A copy of your exam certificate (from Step 2 above) (you are not required to send us any exam certificates if you have taken the examination with CIBSE Training)
- A current and applicable Professional Indemnity Insurance (PII) certificate
- A signed CIBSE Certification Code of Conduct
- The applicable Certification fees (see the payment details in the application pack)

Revision number:	1		
Issue date:	03/08/22	Page:	2 of 6

Step 4, Review of the Certification file and Certification Decision – A full and comprehensive review of all the information provided is performed to determine whether you have met all of the requirements for certification.

The outcome of this review is either certification, a request to provide additional information or in some circumstances a rejection.

Step 5, Certification – A final check is performed to ensure that payment was successfully processed and you are added to the Heat Networks Consultants Register and your certificate is prepared and issued.

Step 6, Maintenance of certification – There are specific requirements that you must meet to ensure your certification continues, see Section 7 below.

Step 7, Recertification – Certification is renewed every three years. The specific requirements for this are given in Section 8 below.

6.1 Special needs

Please let us know in advance if you have any relevant special needs or requirements that you think we should know about when processing your application. Any information you pass to us will be treated in confidence.

6.2 Fees

All fees are payable at the time of application for certification therefore all applications must be accompanied by the appropriate fee payable by cheque, credit card etc.

The fees for certification and inclusion on the registers are contained on the CIBSE Certification website at the following address: <https://www.cibsecertification.co.uk>

6.3 Changes of Details

Certified individuals shall inform CIBSE Certification in writing (i.e. letter, email) within 14 days should any of the following change:

- Name
- Address
- Employer
- Trading status
- Trading name
- Company ownership
- Change in professional indemnity insurance (PII) e.g. provider, extent of cover
- Any other significant change that may affect their certification including any doubt regarding your own ongoing competence

If in doubt please contact CIBSE Certification to discuss the change and any consequences for your ongoing certification.

7 Maintenance of Certification

7.1 General

It is your responsibility to make sure that you comply with these maintenance requirements. Failure to do so may put your ongoing certification at risk.

The maintenance requirements for Heat Networks Consultant Certification and Registration are listed in this section.

Note: This is a new certification scheme administered by CIBSE Certification following the procedures set out in ISO 17024:2012 Conformity assessment - General requirements for bodies operating certification of persons.

Currently there are no further specific requirements for maintaining certification. As these become available this document will be updated and the requirements added. Please be aware that these may place more onerous requirements on you as a Heat Networks Consultant and CIBSE Certification as the Certification Body.

7.1.1 Complaints

You must send details of any complaints that are received during the previous year associated with your Certification and Registration along with the details of the complaint resolution.

You will be liable for (or your employer) bearing the costs of investigating complaints where appropriate.

7.1.2 Continual Professional Development (CPD)

In order to develop your skills year on year we will ask you to undertake and keep a record of a minimum of 21 hours of ongoing training and continuing professional development (this is to be part of, and not in addition to, any existing institutional requirements you may already have to comply with).

Note: Whilst an assessment of competence is mandatory there are no formal requirements for applicants to undertake training of any kind or with any specific training body.

Specific CPD requirements are found in document CCP 111 which is made available to all certified and registered persons via the CIBSE Certification website and is also issued at the time of initial application.

7.2 Further Training and Examination

You will receive notice from CIBSE Certification before any further examinations are required. Reasons for further training and examination are likely to include but not limited to:

- Major changes to regulations or certification scheme requirements
- Those reasons indicated elsewhere in this scheme description document

Document reference:	CCSDD 209	Approval:	A Geens
Revision number:	1		
Issue date:	03/08/22	Page:	4 of 6

8 Recertification

Listing on the Heat Networks Consultant Register is renewed annually but Certification is renewed every three years.

In order to renew your certification you will need to have complied with the maintenance requirements in Section 7 above, e.g. have submitted to any QA audits requests, have informed us of any complaints and undertaken CPD in compliance with requirements, have up to date PII.

If you have complied with the maintenance requirements for the previous three years you will automatically be re-certified and re-registered on your current strands provided:

- You pay the fees required
- You sign a new CIBSE Certification Code of Conduct if applicable to show your commitment to the scheme requirements

By agreeing to recertification you are reaffirming your ongoing commitment to the declaration as signed at the time of your initial application.

In the following example circumstances you may be required to prove your ongoing competence by taking another examination:

1. If the requirements for certification change significantly during the third year of certification e.g. A Government Department introduces rules or regulations
2. Your CPD has not been kept up to date and the correct minimum hours recorded

9 Suspension and Withdrawal of Certification

All certified and registered persons must remain compliant with the certification scheme requirements.

When a certified and registered person fails to meet certification scheme requirements their certification may be suspended or withdrawn.

It should be noted that withdrawal might also be a voluntary process.

10 Respite from the Certification and Registration schemes

10.1 Policy

CIBSE Certification will allow a period of self-declared voluntary inactivity from the Register after which you will be allowed to resume your certification where you left off. This will be administered on a case-by-case basis and will be subject to certain conditions. In all cases CIBSE Certification will make all efforts to be reasonable and fair.

Reasons that may be considered acceptable include, but are not limited to:

- Maternity leave
- Long term incapacity due to illness or disability (physical or mental)
- Emotional distress
- Redundancy

Document reference:	CCSDD 209	Approval:	A Geens
Revision number:	1		
Issue date:	03/08/22	Page:	5 of 6

- Overseas posting

10.2 Conditions

- 1) Respite can be requested for a period of up to 12 months
- 2) The respite period shall start on a date that you indicate to the Certification Systems Manager and you must give at least 4 weeks' notice
- 3) During that time you must have no ongoing involvement in building services engineering in the UK other than training/CPD
- 4) No more than one period of Respite shall be permitted sequentially
- 5) If after 12 months you do not resume your certification it shall be regarded as lapsed
- 6) It is your responsibility to ensure that at the end of the Respite period you contact CIBSE Certification to ensure ongoing certification and registration
- 7) During Respite you may take part in training and CPD activities at your own discretion
- 8) If as a result of a period of Respite you miss out on update training then you will have to take appropriate training and examination (where appropriate this may include taking the full course) to gain the necessary competencies to maintain certification
- 9) You will need to make your Annual Returns for the period of Respite; a nil return stating that you have been on Respite will be acceptable, where appropriate
- 10) CIBSE Certification reserve the right to refuse a period of Respite and reasons for that will be provided to you
- 11) The Respite request will be recorded on our internal database

10.3 How to apply for respite

In the first instance you should write to the Certification Systems Manager, in confidence, stating:

Your reasons for requesting Respite

The period of time you require

Your proposed Respite start and end date

The Certification Systems Manager will respond to all applications within 7 days for simple cases, however for more complex cases this may be extended to 21 days.

11 Complaints about CIBSE Certification

CIBSE Certification operates a dispute and complaints procedure (CCP 101) that any individual (i.e. those that are potential, current, suspended or withdrawn from certification) may invoke at any time e.g. should they feel that:

- They have received poor service
- They have been refused entry to a scheme unfairly
- They have been excluded from the scheme unfairly
- That complaints against them have been unfairly upheld
